911 Director Dave Costin stated the EMA board had interviewed candidates for the new full-time EMA Director position and are recommending Sarah Owen to the Commissioners to appoint. He introduced her to the board and asked if appointed for her to be able to start immediately.

Woodall said it was normal protocol for the Commissioners to interview individuals before they appoint. Costin said by statute the EMA board selects the director with the approval of the county executive body. Ensley said the EMA board may select an individual, but this individual must be approved by the county executive body (Commissioners).

Beck said if there is an issue with the individual hired people will be contacting them. Of course, the Commissioners can always let people know it was the EMA board that recommended and why this person was hired. Helmer said the EMAC will keep a close eye on how the EMA is being run and making sure things are being done correctly. If they are not doing the job they will be terminated. HEALTH DEPARTMENT – OFFICE SPACE

Beck said at first the hospital board wanted the health department to stay in the hospital, and they were working on more office space for them. This went on for months. They had a meeting set up to discuss the additional space, but instead of telling them what space they had found, they let them know they wanted the health department to now move out because they needed the space for doctor offices.

Beck went on to say the hospital board proposed a building the county could buy off of them that is located beside the hospital. If the county was interested in purchasing two appraisals would need to be done. The hospital board said they would cover the cost of one and the county pay for the other. After discussion, the Commissioners decided to not move forward at this time with appraisal.

ANNEX UPDATE

Woodall said the first estimated cost was 18M. The companies went back and reduced the size of the annex by 3,000 square feet and made some other revisions. They are working on an updated cost. The county needed to come up with a maximum price.
